#### MALARIA

So numerous are the developments of malaria that people generally suffer from this noxious when they imagine it is in their system.

and have their origin in a disordered Liver, which, if not regulated in time, great suffering, wretchedness and death will ensue.

#### SIMMONS LIVER REGULATOR

(PURELY VEGETABLE.)

is absolutely certain in its remedial effects and acts more promptly in curing all forms of Malarial diseases than calomel or quinine, without any of the injurious consequences which follow their use.

If taken occasionally by persons exposed to malaria it will expel the poison and

#### PROTECT THEM FROM ATTACK!

As evidence see extract from W. B. Yales' letter, where the Regulator afforded protection from the worst and most deadly type of Malaria, to-wit: Yellow Fever.

"Sirs: I have stood the storm of four epidemics of the Yellow Fever. I had it the first visitation, but during the other three I used your medicine. I was continually in the rooms of the sick and dying, but I escaped. I have had several to ask me how I escaped; I told them it was all owing to the virtue of your Simmons' Liver Regulator. If the fever was to break out again and I had a bottle of your regulator I would feel as safe as if I was 1,000 miles away."

"Memphis, Tenn., April 17, 1879."

Having neutralized the poison of Malaria in such extreme cases, it can be relied on as a sovereign, specific and antidote in milder forms.

THE Navasota Tablet learned from Col. Fred A. Rice that

rumors about the sale or extension of the Central and Montgomery railway are unfounded. The road is doing a satisfactory business, stands and for the present will remain as it is, though the intention is ultimately to connect it to the International and lumber region beyond.

So small a thing as a drink sometimes produces very serious results. At Petersburg, Va., the other day Green, of North Carolina, met and were introduced, a drink was suggested and refused; a quarrel ensued the men went into the yard to fight it out. Lee was killed by a pistol shot fired by Green, and Green was killed by a stab inflicted by Lee. Whiskey credited with this tragedy; both men were respectable.

THE reunion of the Missouri ex-Confederates, at Dallas, Wednesday was largely attended. The exercises were opened by an address from Gen. Lewis, who was followed by Col. Frank Mitchell, of Brenham, and several others. A spirit of loyalty pervaded the meeting and a colonel who looked the stand and announced himself as an unreconstructed rebel was hissed down. Between 400 and 500 ex-Confederates were on the ground and some 2500 spectators. A good time was had.

THE Ohio Prohibitionists have a pretty broad platform. They are not content with an anti-liquor plank, but branch off, and have a word to say about everything; they want executive and legislative patronage abolished and all officials elected by the popular vote; they want compulsory education; the prohibition of of gambling in gold; equal suffrage, irrespective of race, sex or color, etc. The word prohibition falls far short of describing this party, which has more planks in its platform than a railroad depot.

LAREDO is now enjoying a business boom. Railway connection with the largest city of Texas has a beneficial effect, says the San Antonio Express, which paper of late loses no opportunity of informing the public in general and Galveston in particular, that San Antonio is the biggest city in the state. The extension of the railways west from San Antonio has apparently had the effect of waking her people up. It will require effort on the part of that city to retain the western trade, Laredo or some other point on the Rio Grande may prove a very formidable rival to the ancient city of the missions.

THE Albany correspondent of the New York Sun does not think that Conkling is going to patiently submit to his late defeat. He is only biding his time for an opportunity to strike the republican party a fatal blow. This correspondent of the Sun estimates the Conkling republicans in the State at 300,000, one in five of whom is a regular politician, who feels insulted at the wrongs heaped on Conkling, and will at his dictation bolt the republican nomination. This will give New York to the democrats by 50,000 majority. Once before Conkling was ignored by the republican party in New York and E. D. Morgan nominated for governor against his wishes. The result was a republican defeat by more than 35,000 majority.
